Introducing the HealthForce Health Risk Assessment

HealthForce's New Online Health Risk Assessment

HealthForce Partners, a single-source provider of workplace health solutions, is proud to introduce its health risk assessment (HRA) tool. This innovative, user-friendly, online tool will help your employees to assess and monitor their personal health status. More important, our HRA tool—through its aggregate reporting function—will allow you as an employer to decipher important organizational health trends and introduce the appropriate health management interventions.

Why Does My Company Need An HRA?

Plain and simple, you can't change what you can't measure. And when it comes to containing healthcare costs and improving employee health, our HRA is one of the most critical components in the entire health management process. With HealthForce's HRA, your employees can receive the important health information they need in one easy-to-understand personal health report. And, as an employer, you'll get a HIPAA-compliant aggregate report showing the overall risks and trends identified for your employee population. It really is that easy.

What Health Issues Does the HealthForce HRA Address?

Specifically, HealthForce's HRA incorporates an individual's personal health information, family health history, and general health status and correlates it with the following health issues:

- ✓ Blood Pressure
- ✓ Cholesterol/Blood Sugar
- ✓ Dental Health
- ✓ Tobacco Use
- ✓ Exercise
- ✓ Safety
- ✓ Emotional Health
- ✓ Nutrition
- ✓ Men's Health
- ✓ Alcohol Use
- ✓ Sun Protection
- ✓ Women's Health

Does the HealthForce HRA Incorporate the Stages of Change?

Yes! The HealthForce HRA is stage-based and provides participants with questions and report information that address all of the stages of change. In addition to providing stages-of-change information, our HRA also provides individuals with results that compare year-to-year progress. This is an essential feature that will help your employees to monitor and track their health status over time.

Just imagine what you could accomplish if you had the ability to:

- ⇒ Assess and Track Employee Health Status
- ⇒ Reach Everyone With Personalized, Stage-Based Information
- ⇒ Monitor Important Trends Over Time

An Online HRA Unleashed

The Informative, Confidential, Personal Health Report

Each person who completes the HealthForce HRA will receive a personalized and confidential summary of his or her current health status. This report includes an overall health risk level:

- ⇒ Individual risk factor status
- ⇒ Risk levels for specific health conditions, including:
 - ✓ Cancer
 - ✓ Diabetes
 - ✓ Mental Health Concerns
 - ✓ Stroke
- ⇒ An itemized assessment highlighting current metrics, such as:
 - ✓ Cholesterol
 - ✓ Blood Pressure
 - ✓ Exercise
 - ✓ BMI...and comparing them to recommended targets set forth by national health and medical agencies
- ⇒ Personalized feedback regarding health screenings, personal health habits, and modifiable and non-modifiable risk factors
- ⇒ Recommendations for improving health status

Is the HealthForce HRA HIPAA-Compliant?

Yes. The HealthForce HRA has been reviewed by health experts and legal advisors to ensure that this new assessment meets HIPAA regulations and standards.

“The HealthForce HRA provides users with a 12-page customized personal health summary and employers with a comprehensive aggregate report...all at the most affordable price in the industry.”

HealthForce's HRA provides a 12-page personal health report. This engaging summary is guaranteed to enlighten employees about their individual health status.
